◦ Education ◦

COMSATS

Bachelor's degree in Computer Science

Sept,2022 - Present

PGC

Intermediate

Oct,2020 - June,2022

Divisional Public School

Matriculation

April,2010 - Feb,2020

◦ Certifications ◦

React & Redux Course

Prashant Sir

Infym AI Hackathon+Training

Infym AI

◦ Awards ◦

Frontend Developer Competition

Winner

Decentral Developers

Devathon Participant

Devathon Devsinc

Web Hackathon Participant

Softec'25

Webathon

Cachelogics

AI hackathon Participant

PF-PuCon'25

◦ Achievements ◦

LeetCode **280+** Problems Solved

Summary

Full-stack developer and AI specialist building sleek, scalable digital systems. Experienced in NestJS, Next.js, MongoDB, Python, and AI/ML pipelines. Skilled in turning complex ideas into production-ready solutions, with a passion for experimentation and innovation.

Experience

• Axtre Studios | Associate Software Engineer Intern

July, 2025 - October, 2025

- **Leveraged LLM Integration:** Integrated Large Language Models (LLMs) into backend workflows to enhance application intelligence and automation capabilities.
- **Full-Stack Development:** Managed end-to-end development tasks, bridging the gap between complex backend logic and responsive frontend interfaces.

• Blunder Bot Technologies | AI Intern

June, 2025 - July, 2025

- **Engineered** "TaskWise," a comprehensive AI-powered project management application featuring **RAG** pipelines.
- **Implemented** automated workflows for task division and team-lead selection, **sentiment analysis**, and AI-generated reporting tools to provide real-time insights into team productivity and project health.

Technical Skills

Languages: TypeScript, JavaScript, Python, Java

Frameworks & Libraries: Next.js, React, Tailwind CSS, NestJS, FastAPI, Redux

Databases: Relational, Non-Relational, Vector Databases (FAISS, Qdrant)

AI/ML: RAG systems, CNNs, SVM, KNN, Transfer Learning, NLP

Tools & Platforms: Git, Docker, Google OAuth, Supabase, Cloudinary

Projects

• Tasks by AION

Task by Aion is an AI-powered automation platform that streamlines **documentation, research, and workflow creation**. It generates content, builds branded slide decks, expands spreadsheets intelligently, and delivers rapid research insights.

• Zero Limit Apparel

Zero Limit Apparel is an e-commerce platform built with **Next.js** and **MongoDB**, providing a seamless online shopping experience. It features an **intuitive interface** for browsing and purchasing products.

• Personal Assistant

Smart Discord Assistant that enhances **productivity** by **automating email management, tracking finances**, and generating **monthly income statements**. It also delivers **task reminders** for deadlines and events.
